

CUSTOM SOFTWARE DEVELOPMENT

Who We Are and How We Move Businesses Forward

www.freedomdev.com

WE DO SOFTWARE

Software Development

From conceptualization and design, to development and support, we create software that frees up time, automates tasks and streamlines processes. Free up time to focus on growth with **web, mobile and desktop apps**.

Business Intelligence

When your data is in front of employees, communication is fluid and decisions are informed. Productivity is sure to improve. Make better decisions to see what works and why with **data analytics and integration**.

WHO WE ARE

We are able to take your vision and create a custom software application that moves your business forward. Get the edge on competition in any business environment with software inspired by you and working for you.

**We are
talented,
driven,
dedicated,
skilled,
innovative,
hungry,**

WHAT SETS US APART

Enter Data Once

We're experts in data automation and integration, making sure you and your employees don't have to touch a keyboard or enter data more than once.

Industry Expertise

Our speed and performance is a tribute to our manufacturing industry expertise. We get the right data to the right people at the right time.

Freedom to Create

We take the time to learn about your business, your goals and your ideas. With a little research and a lot of planning, we define the project that meets your needs.

EXPLORE THE BENEFITS

From the factory floor to the boardroom, here are some of the results you can expect with custom software and business intelligence apps.
